

RAINBOW LOTERIA

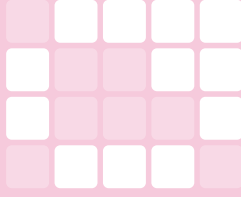

Explain the rule of the game.

Announce which category wins the game.

There are the categories L, G, B, T, I, Q, A, and LGBTQIA* (all). The first person to cover all the spaces of that category with tokens wins the round.

Example:

To win in category Q, all white spaces must be covered with tokens.

And off we go!

You are the dealer. Draw a picture card face down and call out its name out loud.

If a player has that picture on their Lotería tabla, they place a token on that space.

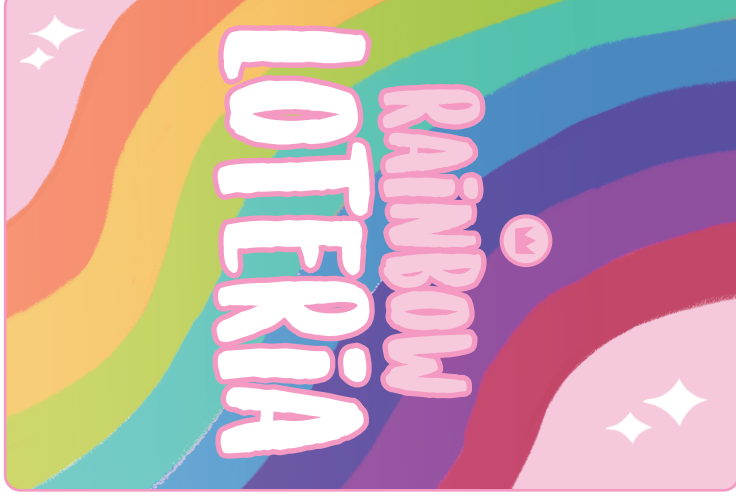

Draw the next card... and the next... until someone wins.

Tip:

You can help the players by showing them the drawn picture card.

Up to 30 people can play together.
Get 20 tokens for each player. These can be beans, chips, or coins.
Each player gets a Lotería tabla and 20 tokens.

Preparation:
Print the 54 picture cards and the 30 Lotería tablas on thick paper and cut them out along the dotted lines.

You can also draw the cards online with a mouse click.
To do this, go to our web app:
